

## For the Parent: Mirror Check

Reflect on your own empathy habits:

- Do I shut down when others express strong emotions?

---

---

---

- Was emotional expression discouraged in my childhood?

---

---

---

- Do I mistake my child's quietness for indifference—or a cue to slow down?

---

---

---

Just because they don't *show* emotion doesn't mean they're not *feeling* it.
